

Winter Classes for Children and Teens Begin January 14

The Center's unique curriculum of children's art classes allows young artists to enroll in either overview classes that explore a broad range of media and techniques, or in-depth classes designed to deepen and develop skills in a single medium.

Classes for children with Autism Spectrum Disorder and other special needs are offered on Monday afternoons beginning January 27, and provide guided experiences that foster communication, creativity, and problem solving with hands-on activities involving clay and paint.
